

BXT2-16

Battery Powered Plastic Strapping Tool

Features

- Simple two-button rugged operation
- Ergonomic design reduces operator fatigue
- Light or regular tension adjustments
- Semiautomatic and automatic settings with one button operation
- Brushless motor for less wear and longer life
- Innovative battery design reduces contact damage
- 14.4V lithium Ion battery

Specifications:

Strapping: For use with 3/8", 7/16", 1/2" and 5/8" polyester and polypropylene strapping

Tension Rating:

Standard tension: 200 to 550 lbs
Low tension: 88 to 335 lbs

Weight: 9.0 lbs
