

BXT2-19

Battery Powered Plastic Strapping Tool

Features

- Rugged Construction
- Simple two-button operation
- Ergonomic design reduces operator fatigue
- Light or regular tension adjustments
- Semi-automatic and automatic settings with one button operation
- Enclosed brushless motor for less wear and longer life
- Innovative battery design reduces contact damage
- 18V lithium ion battery

Specifications:

Strapping: For use with 5/8" and 3/4" polyester strapping

Tension Rating:
Standard tension: 260 to 880 lbs
Low tension: 88 to 350 lbs

Weight: 9.3 lbs
