HS 65-SERIES

High Speed Automatic Strapping Machine

Unmatched Simplicity

A high-quality, high-speed arch type strapping machine, the PPI HS65-Series bundler offers performance at an affordable price. A wide tension adjustment range makes it ideal for a number of applications including: magazines & newsprint bundles, metal profiles, wood flooring, boxes & totes, etc. Machines available for 5, 6, 9 or 12mm strap

Ergonomical Foot Pedal

Ergonomically designed and user friendly foot bar and adjustable table leg height ranging between 820mm and 920mm.

Compact Strapping Head

The compact HS 65-Series strapping head has no belts, clutches or pulleys. It is designed with up-to-date technology with few moving parts. 30% fewer parts requires fewer adjustments and fewer wear components requiring less maintenance

Movable Box Control

Turnable operating control panel located on the upper side of the machine for easy operator access whichever way the machine is situated in production.

Features

- One Piece Strap Chute
- Dual Side Control
- Sensor Controlled Heater
