# HS 65S-SIDE SEAL

## High Speed Automatic Stainless Steel Strapping Machine

### Unmatched Simplicity

The PPI HS 65S-Side Seal wash down machine includes a stainless steel frame and rust resistant/corrosion resistant parts. The waterproof design is suitable for water and wash down spray. They are ideal in harsh working environments, such as meat, poultry and marine food processing. Machines available for 5, 6, 9mm or 12mm strap.

### Water Proof Design

The PPI HS 65S-Side Seal has an internal heater to minimize the accumulation of humidity inside the machine. Special protection from electric control unit (IP 54) rated to ensure safety and protect from water and wash down spray.

### Compact & Robust Strapping Head

The HS 65S-Side Seal strapping head is designed with rust resistant and corrosion resistant parts. Uses the latest DC brushless motor technology to provide the highest level of accuracy and reliability in the industry.

### Downward Tension Force

The HS 65S-Side Seal offers the most consistent and repeatable strap tension and seal efficiency. The package is pulled downwards during the strap tension cycle, holding it securely in place, resulting in secure and consistent strap tension.

### Strap Dispenser with Ergonomic Design

On the HS 65S-Side Seal the position of the strap dispenser is inside the machine frame. It's convenient and easy to change the coil of strap. This design also protects the strap dispenser from moisture.

### Quick Release Strap Guides

Removable guides allow quick and easy access for clearing without the need for tools. The HS 65S-Side Seal is the most maintenance friendly design available.

### Features
