

FLEX-SERIES

RTD Deluxe Rotary Stretch Wrapper

Durability, Reliability & Performance

Features

- Unlimited load capacity
- 16 RPM variable speed arm
- Floor mounted control panel for flexibility
- Precision ring bearing
- Tower mounted obstacle sensing system
- AC/VFD motors for reduced maintenance

FLEX-SERIES

RTD Deluxe Rotary Stretch Wrapper

Precision Engineering

is ideal for those customers who...

- Need speed in a cost-effective package.
- Use a mix of pump trucks, walkies and fork lifts.
- Want to wrap very light, heavy or unstable loads.
- Want to integrate an existing floor scale with a wrapper.
- Need to do frequent cleaning/floor washing.

Durable Touch Panel

The Flex RTD uses a durable operator touch panel to allow easy programming of common settings. advanced programming functions are password protected.

Operator Friendly Guides

Every RTD comes with graphic instructions on top of the carriage to guide the operator through the film threading process for quick and convenient roll replacement.

State-of -the-Art Control Panel

State-of-the-art control panel with its clean and simple interface on the outside to its sophisticated programmable logic control and AC variable frequency drives inside, every aspect of the control panel has been designed to maximize reliability and ease of use.

Features

- 16 RPM Variable Speed Arm
- No Maximum Load Capacity
- Economical 260% Powered Film Pre-Stretch
- Floor Mounted Control Panel for Flexibility
- Precision Ring Bearing
- Heavy Duty Chain and Sprocket Drive
- AC/VFD Motors for Reduced Maintenance
- Tower Mounted Obsacle Sensing System

Options

- 30" Insta-Thread Film carriage
- Tall Load Option
- Large Load Option
- Second Leg Gantry Style Frame

Technical Data

- Standard Load Size: 52"L x 52"W x 80"H
- Maximum Load Weight: Unlimited
- Powered Film Pre-Stretch: 260%
- Power Supply: 110V, Single Phase 60HZ
