CORNERTUFF™ with CornerWrap

- Superior Edge Protection
- Additional Strength
- Extra Safety for all your Shipping Needs

Edge Protection

Vertical Stacking

Internal Strength

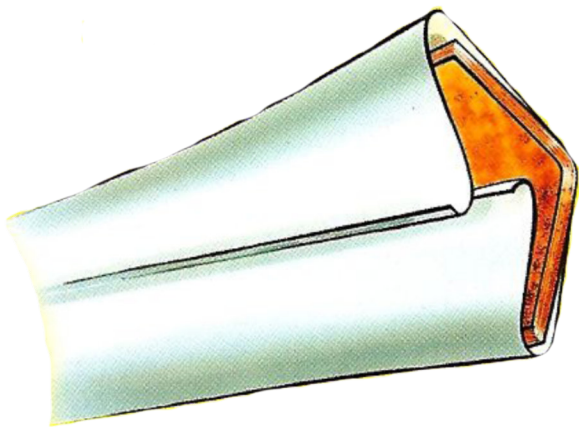

CornerTuff is a versatile, economical, high-quality packaging product constructed of recycled paper plies which are laminated, treated and formed into right-angled lengths for exceptional strength.

CornerTuff edge protection performs many practical functions

- protects your shipments from strapping and stretch wrap damage
- defends against corner damage
- facilitates unitization and increased stacking strength
- offers unique value in many specialty applications

CornerTuff Saves you money by both reducing your losses from shipping damage and increasing the efficiency of your materials and space usage.

CornerWrap: Added Strength, Added Safety, and a Cleaner Look

CornerTuff with CornerWrap features a layer of paper that completely covers the surface of regular CornerTuff, providing additional strength and eliminating sharp edges for safer handling

The cleaner look means your shipments arrive with a "first-class" appearance. In certain applications, choosing CornerTuff with CornerWrap allows you to reduce your cost through a reduction in caliper and/or leg length, without compromising performance

Of course all of our CornerTuff Advantage Services are available when you purchase CornerTuff with CornerWrap.

CornerTuff Advantage Services:

... the best answer to many of your packaging needs, because only CornerTuff and CornerTuff with CornerWrap have these advantages

✓ Quick Delivery

You have no time for delays! Packaging Products Inc. will fill your CornerTuff order from their well-stocked warehouse, eliminating the industry-standard 2 to 4 week turnaround

✓ Just-In-time Delivery

You want to plan ahead, Packaging Products Inc. will set up a long-range delivery schedule with you, so you know your materials will be on hand when you need them

✓ Part-Skid Quantities

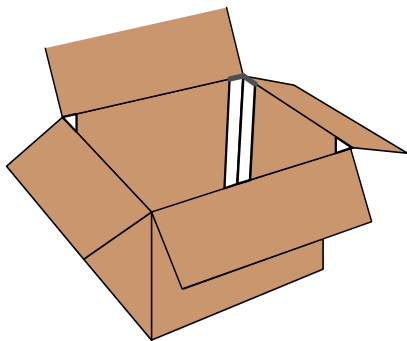

You don't always want to make a bulk purchase. Packaging Products Inc. can tailor the size of your CornerTuff order to meet your specific requirements.

✓ Cut-to-Spec

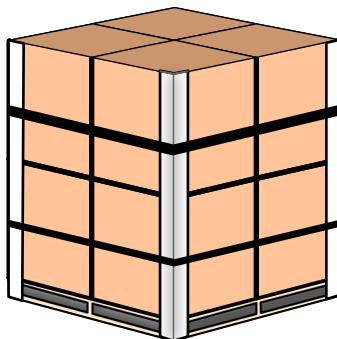

Packaging Products Inc. will precision-cut CornerTuff to your exact specifications - and we can help you determine the most cost-efficient cuts for your applications!

CornerTuff gives you the edge in a wide range of shipping and packaging applications!
