Six-Sided Orbital Stretch Wrapping System

Precision Engineering

is ideal for those customers who...

- Wrap large amounts of product longer than a standard skid.
- Want to economize on their packaging materials and labour.
- Require total coverage on long products to protect them during shipping.

Insta-Thread Film Delivery System

The Constellation is equipped with the Insta-Thread™ powered pre-stretch film delivery system and is compatible with all high quality stretch films from 10" to 30" in width.

6 Sided Wrapping

Featuring 6 sided wrapping. Totally wrap a load while locking it to the pallet by combining an orbital with an automatic wrapping system.

Film Treatment System

Constellation comes with film treatment options that include automatic clamping/cutting for individual wrapping of single loads, flying cut-off for open end/high speed wrapping, and heat seal for total encapsulation.

Features

- Automatically Adjusts for Various Load Widths & Heights
- Allen Bradley PLC Controller
- Rotational Safety Photoeyes

Options

- Dual Carriage

Technical Data

- Load Maximum Length: 36"-48"
- Load Dimensions Maximum: 48"W x 48"L
- Ring Sizes: 15" - 80"
- Powered Film Pre-Stretch: 260%
- Power Supply: 208/120V, 3ph, 60Hz, 20Amp
